

DENVER SHARED SPACES

*Connecting Nonprofits
through Real Estate*

"DOSP's Shared Space Project has given the organizations that are part of the Nonprofit Support Cohort the opportunity to demonstrate how collaboration by our organizations can benefit Colorado's nonprofit sector. Once we are sharing space, our organizations will also achieve cost-saving operating efficiencies over time."

-Renny Fagan, Colorado Nonprofit Association

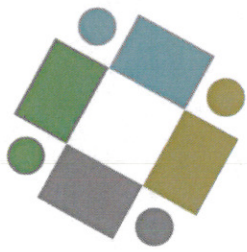

What is the Denver Shared Space Project (DSSP)?

The Denver Shared Space Project (DSSP) is the one-stop shop for non-profits around shared office and meeting space. All organizations in Denver should think of DSSP first when looking to share space and back-office functions to maximize resources, minimize expenses, and work more efficiently.

"Having our organization aligned with and listed on the DSSP website has been very instrumental in attracting co-working tenants to our facility. In fact, the majority of our active members have discovered us either directly or indirectly through our association with DSSP."

- Heidi Wells, The Innovative Alliance
